Other: City-owned. City employee. I'm not familiar with the Board enough to make a comment toward this

Please describe what you think the purpose of this organization should be.

Answered: 7

Skipped: 1

To meet and share ideas.

- To foster a collegiality that benefits all SEK museums through common interest and activities. Provide support for the success of all.
- Education in the processes of operating a museum, sharing publicity and tourism, sharing ideas for increasing local engagement with our communities.
- The purpose of this organization should be to encourage collaboration between similar institutions with similar needs, to also provide an opportunity to make each other aware of our needs and/or extra supplies or equipment that we may no longer have a use for at our institution, but another institution may be able to use. The SEK Museum Coalition provides a specific niche for possibly creating a museum/historical society buy/sale/trade group. Encourage the exchange of ideas on how to better promote our institutions to the next generation.
- Networking, support and resource
- Share success and failure information, provide educational programs of interest to improve quality of museums, develop promotional material that can be given out by each museum to help promote other museums in the region, provide contact information for each museum to enable cross promotional events.
- To preserve SEK History and share the wonders of SEK. We are all fighting the same fight, why not fight together.

Would you volunteer to be active in this organization as a member, representative, or officer?

Answered: 8

All answered yes.
